25X1A OBI had two analysts -- [REDACTED] -- at the Washington Narcotics Conference. The attached is a report of highlights from that conference as seen by [REDACTED] 25X1A

I should think that you and Paul might find them interesting. Perhaps the DCI might have enough interest in the subject and in how it sounds from the other side of the footlights to justify calling the report to his attention. I thought it was a good reporting job.
